INTEGRATED NAVAL COMMUNICATION SYSTEMS

ASELSAN provides complete internal / external naval communication system solutions for all tactical and administrative communications needs for any naval platform.

ASELSAN develops reliable and tailored Integrated Naval Communication Systems for Turkish Navy and Turkish Coast Guard Command.

External Communication Systems: Open/Crypto communication and data communication that enable to communicate from one platform to another sea/air/shore platforms.

Internal Communication Systems provide naval platforms to contact with many internal locations, to reach external communication systems, to receive/send/handle written messages, to control external systems, to activate alarms and announces.
