

# NOKTA

IR LASER POINTER

COMPATIBLE WITH NIGHT VISION GOGGLES

HIGH OUTPUT POWER

COMPACT AND RUGGED DESIGN

CONTINUOUS OPERATION

# NOKTA

## IR LASER POINTER

### Applications

- Laser Target Pointing
- On Weapon or Handheld Usage

### Main Features

- IR Operating Band
- High Output Power
- Output Power Adjustment
- Rechargeable Battery

### Technical Specifications

- |                |                              |
|----------------|------------------------------|
| • Wavelength   | : 808 ± 20 nm                |
| • Output Power | : > 150 mW                   |
| • Divergence   | : < 1.5 mrad                 |
| • Power source | : Rechargeable Battery       |
| • Battery Life | : > 5 hours                  |
| • Dimensions   | : 135 x 70 x 30 mm           |
| • Weight       | : < 450 g                    |
| • Safety Class | : Class 3B, ANSI-Z136.1-2014 |

### Environmental Conditions

- |                         |                  |
|-------------------------|------------------|
| • Operating Temperature | : -20°C to +50°C |
| • Storage Temperature   | : -30°C to +55°C |
| • Environmental Spec    | : MIL-STD-810G   |

### Standard Accessories

- Rechargeable Battery
- Battery Charger
- Mounting Adapter
- Optical Cleaning Kit
- Carrying Case
